

## Fu Associates MCD Archive Updates

**New and improved functionality has been incorporated into the MCD Archive. The following is a summary of the changes that are effective on 06/19/16:**

### **Medicare Coverage Database Archive (MCD-A) Website**

- ✚ Query results in the Reports have been limited to 5000 documents. If the results are greater than 5,000 documents, text displays requesting the user to further define their query.
- ✚ All select lists are now in alpha format. Prior to this release, the select lists displayed in contract number order.
- ✚ ICD-9 and ICD-10 selections have been added to the Index function. Users can now obtain Index results by Diagnosis code.
- ✚ LCDs and Articles now display in the “View” function with all associated contract numbers.
- ✚ Various text enhancements and bug fixes.
